

ECT INFORMATION FOR PSYCHIATRISTS

ECT patient lists are performed three times per week in an inpatient or day patient capacity.

If you have a patient who requires ECT, they can be referred to a TPH credentialled ECT doctor (the relevant ECT referral form is to be completed).

If you would like to perform ECT at TPH, you can apply to do so through the TPH Credentialling and Scope of Practice Process. Applications can be requested through the Medical Council Credentialling Officer – phone (07) 3721 8000.
